Grant Project Budget Amendment for Community Development Block Grant (CDBG) and HOME Investment Partnership Program Special Revenue Fund (C2101). Ordinance Adopted. The Department of Housing and Urban Development has granted funding for the CDBG, HOME and CDBG-CV programs for 2021 to the City of Goldsboro as an entitlement city. These grants will be managed by the Community Relations department.

This fund has been established as a grant project (G.S. § 159-13.2) fund to satisfy the federal grant requirements which call for the City to establish a means of tracking the expenditures for Single Audit purposes so that external auditors can verify compliance with the various Federal and State grant guidelines in the compliance supplements. The allocations for 2021 have been issued by HUD and accepted by the City as follows:

CDBG 2021 (B21-MC-37-0019)	\$ 354,122
HOME 2021 (M21-MC370209)	\$ 250,738
CDBG-CV3 (B-20-MW-37-0019)	\$ 220,749
HOME ARP Funding (M21-MP370209)	\$ 907,913
Total Funding	\$1,733,522

Staff requests that the Council appropriate expenditures in the amount of \$1,733,522 so that the terms of the grant agreements may be carried out. The allocation of the expenditures was based on recommendations from Ms. Felecia Williams, Community Relations Director and any limits placed on the funds by HUD.

Also, as program activities for the CDBG 2019 and 2020, as well as HOME 2019 and 2020 have been carried out for the past two years, it is necessary to reallocate expenses to align with actual expenses among the objects of expenditures. There is no overall net change in the grant amount for each of the years presented for amendment.

It was recommended that Council adopt the following entitled Grant Project Ordinance amendment for the Community Development Block Grant (CDBG) and HOME Investment Partnership Program (HOME) Special Revenue Fund (C2101) in the amount of \$1,733,522. Consent Agenda Approval. Aycock/Broadaway (6 Ayes)

ORDINANCE NO. 2022-13 “AN ORDINANCE AMENDING THE GRANT PROJECT FUND FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME INVESTMENT PARTNERSHIP PROGRAM SPECIAL REVENUE FUND (C2101)”

Annual Operating Budget Amendment FY21-22. Ordinance Adopted. Council adopted the FY21-22 operating budget at the June 18, 2021 Council meeting. The operating annual budget may be amended from time to time in order to adjust to current operating conditions.

Please find attached an ordinance amending the annual operating budget for fiscal year 2022 for multiple items that have arisen during the current budget year.

Insurance

As a point of reference, the City expended approximately \$627K in multi-peril insurance, \$193K in auto liability insurance, \$150K in worker's compensation insurance, and \$207K in flood insurance for a total of \$1,177K in non-health insurance related coverage. The City carries insurance policies for general liability, public officials, employment practices, liquor, property, auto, crime, inland marine, law enforcement liability, umbrella, security bonds, worker's compensation, drone, cyber liability and flood.

With the new insurance broker, Arthur J. Gallagher, we have been able to better identify direct costs to the departments instead of past methods being used. When the insurance accounts were initially budgeted for FY22, amounts were based on prior budget amounts. We received detailed allocations of the various costs and are correcting those allocations with this budget amendment. We found that the insurance costs were skewed in favor of the general fund, and costs did go up this past year in worker's compensation (19.24%), auto (89.67%), general liability (30.90%), property (12.53%), and umbrella 78.82%.

Costs are charged to each department and the reallocation of budget included in this amendment is broken down by fund is as follows:

General Fund Multi-Peril	\$155,437
General Fund Auto	\$ 15,818
Stormwater Multi-Peril	\$ 4,781

Stormwater	Auto	\$ 12,665
Utility Fund	Multi-Peril	\$(8,906)
Utility Fund	Auto	\$ 8,906
Occupancy Tax	Multi-Peril	<u>\$ 567</u>
Total		\$189,268

General Fund	Worker's Comp	\$124,490
Utility Fund	Worker's Comp	\$ 17,845
Occupancy Tax	Worker's Comp	<u>\$ 988</u>
Total		\$136,467

Additional expenditures were funded with prior year loan proceeds that were received in FY22 in both the General Fund and Stormwater Fund. Cell tower lease revenues funded additional worker's compensation insurance in the Utility Fund, and Utility Fund reduced expenditures in multi-peril to cover the additional costs in auto. Miscellaneous revenue in the Occupancy Tax Fund funded the additional insurance expenditures, and the

Paramount Theater

Additional expenditure appropriations have been requested by the director, Mr. Adam Twiss, to fund operations until June 30. The Paramount has experienced revenue levels that have increased back to pre-pandemic levels. Revenues were budgeted conservatively in FY22 at approximately \$173K, and Mr. Twiss has estimated that revenues will increase \$282K to a total of approximately \$455K. That is not in addition to the SBA ARPA grant received of \$332K for the Paramount. This amendment requests revenue appropriations of \$158K to allow the Paramount to execute necessary programming through the rest of the fiscal year. The remainder will be allowed to roll into fund balance.

Goldsboro Event Center

In similar fashion, the Events center has experienced significant growth this year above what was estimated in the FY22 budgeting process. Mr. Twiss has requested additional expenditure appropriations of \$22K in order to fund operations through the end of FY22, and this will be funded with additional charges for services. The revenues from the GEC were budgeted at approximately \$41K and through March have exceeded \$54K.

Telephone Costs

Earlier this year we began a project to better identify and capture Verizon device costs across the City. We partnered with IT to go through the list of almost 300 devices used by the City on the Verizon network. We were able to identify the correct cost centers and have charged these departments according to their device usage. A number of the costs were paid for by IT. We have reallocated approximately \$85K in expenditures to these departments and it is being funded with a reduction in expenditures in telephone in the IT department. The 2 largest departments are Police at \$56K and Fire at \$16K.

Fuel Costs

The City's fuel costs have risen dramatically this past quarter with no indications of easing in near future. The gas and diesel expenditure accounts are depleted, and additional appropriations are necessary so that we may continue to fuel our fleet. An increase of \$146K in gas and \$58K in diesel is recommended. This will be offset by charges for services that are billed out to each department, and also to the GWTA. This will increase the estimated year end total to approximately \$904K for gas and diesel.

Garage

The outside repairs account in the Garage is depleted. There was a major repair to a fire truck for approximately \$55K that is included in the outside repairs. Additional expenditures for outside repairs are requested to allow the Garage to finish the remaining fiscal year. This will be offset by charges for services that are billed out to each department monthly. The additional cost of the motor for the Fire Department will be funded with prior year loan proceeds.

Property Tax Fees

Additional property tax listing and collection fees are requested to finish out the fiscal year in the amount of \$9.7K. This will be funded with an appropriation of additional tax revenues.

Land Sales

Expenses for the sale of real property in the amount of \$26.6K are requested to pay for proceeds split with Wayne County and advertising. This will be paid for with an appropriation of sales of land revenue.

Golf

It is necessary to appropriate additional expenditures for alcohol for resale in the Golf division in the amount of \$5K. There were no revenues budgeted for alcohol sales for Golf, however revenues have exceeded \$10K through March 31.

Repairs Cost for Insurance Claims

The City has had several insurance claims regarding City property this fiscal year. We do not budget for insurance revenue or insurance repairs expense during the budget process since we have no way of knowing what department might be involved in an accident involving city property. At this time, we are requesting expenditure appropriations to cover costs to repair city property in the amount of \$103K and this will be funded with an appropriation of insurance proceeds revenue. The breakdown by fund is as follows:

General Fund	\$ 80,574
Utility Fund	\$ 22,963
Total	\$103,537

Personnel – Police to IT

In order to assist with the ever growing needs of City for IT services, the Manager has authorized the transfer of a position in Police to the IT department. There is no increase in the total number of FTE's. The FY22 Adopted Budget was approved with 482 FTE's. Council authorized the addition of 7 additional positions to assist Finance and IT earlier this year, bringing the total to 489 FTE's.

Funding will be accomplished by reducing salaries in Police approximately \$20K to transfer to the IT salary expenditure line item.

Access Drive at the Maxwell Center

At the September 20, 2021 council meeting, City Council authorized improvements associated with the realignment of the access drive at the Maxwell Center with a cost not to exceed \$50K (Res 2021-71). It is necessary to appropriate the expenditures for this improvement, and it will be funded with prior year loan proceeds.

Forfeited Performance Bond

Planning has requested that a performance bond for Preservation North Carolina for 302 S. John Street be appropriated to pay for a demolition on this property. The bond was received 7/15/15 in the amount of \$6,950.00. The demolition was paid for by the City on 11/4/21 to Corbett Clearing and Demolition, LLC in the amount of \$5,000. It is necessary to appropriate expenditures to cover this cost, and it will be funded with forfeited performance bond revenue.

Utility Fund – Transfer to Capital Project

In the past fiscal year, the City completed the \$1.5M upgrade to the Water Treatment Plant to increase the water production capacity through the Plate Settlers Project. The City was responsible for paying the debt issuance costs to DWI in the amount of \$34,627. This amount needs to be transferred from the Utility Fund to the Plate Settlers Capital Project Fund (W1112), and this will be funded with an appropriation of cell tower lease revenue.

Occupancy Tax Fund

The Occupancy Tax Fund received a reimbursement of \$2,237.49 from NC Sports Association for the Boys NC Laxfest, and this miscellaneous revenue will be used to offset various items in the Travel & Tourism budget.

In preparing the FY23 budget, we must also estimate the current revenues and expenditures. While working on the Occupancy Tax fund, it was estimated that revenues for the Civic Center (80%) and Travel & Tourism (20%) were going to be higher than originally budgeted, which also means that the expenditure to pay Wayne County (40% of both revenues) was going to be slightly short. An expenditure appropriation of \$36K is being requested to cover the expenditure for the remainder of FY22 with the balance of \$54K being allocated to Contingency. This will be funded with additional revenue for Civic Center (80%) \$61K and Travel & Tourism (20%) \$28K.

RESOLUTION NO. 2022-35 “RESOLUTION WITHDRAWING PROPERTY FOR SALE”

Downtown Development Department Office Lease Agreement. Approved. The Downtown Development Department has been a department of the City since 1993, when the existing Downtown Goldsboro Development Corporation partnered with the City to form a public-private partnership. The two entities have

worked successfully together to create and carryout our downtown development efforts as a North Carolina Main Street Community for nearly 20 years. Main Street utilizes an approach to preservation-based economic development to drive growth in over 3000 historic downtowns across the country. Using the Main Street approach, the DGDC and DDD have spurred a significant amount of economic development, resulting in more than \$66M in public and private investment, 167 building renovations, 400 net new jobs and 68 net new businesses just since 2013.

The Main Street approach prompts the DGDC and DDD to work closely together, as they have done since 1993. The DGDC is comprised of a private non-profit board, with 24 volunteer members, and four volunteer-led committees – Design, Economic Vitality, Promotions and Merchants. The Board and Committees are supported by DDD staff, including the Downtown Development Director, Business and Property Development Specialist and a Marketing and Administrative Assistant.

In 2008, the City of Goldsboro supported the DGDC's decision to develop a vacant property behind City Hall – 219 N. John St. This calculated-risk on behalf of the DGDC was taken in an effort to encourage further development in the block, which led to \$60,000 of revenue for the City of Goldsboro, after the sale of the remaining buildings in the block. By 2020, all four properties surrounding DGDC were rehabbed for a total private investment of \$2M.

In 2013, the Downtown Development Staff moved in to the newly-rehabilitated 219 N. John Street. In support of DDD staff, the city agreed to cover utilities, including power, water, refuse, phone, and internet access, as well as janitorial services, and insurance of city-owned property within the building. The DGDC provides the office space at no cost to the city, including a large conference room on the 2nd floor.

In 2019, the DGDC Board of Directors began discussions of replicating this effort, realizing the impact their investment had on the surrounding properties, and the example it set for other investors. As a result, the DGDC purchased the former Record Rack property at 116 N. Center Street – vacant for 14 years and in need of rehabilitation. The final investment will be around \$600,000 and includes an office space on the first floor and an upper-story residential space. The current space generates \$920.76 in City and MSD tax revenue, with the expected potential city tax revenue of more than \$4,500.

The DGDC has proposed to enter into the same arrangement with the City of Goldsboro, providing office space for DDD staff, as well as shared use of storage and kitchen space and a conference room. While no lease was formally-produced for the current office, staff has produced a formal lease agreement between DGDC and the City of Goldsboro for Council's review.

With support from the DGDC, DDD staff recommends that the City enter into an agreement that includes the following:

- 1) The DGDC will provide no-cost leasing of office space for staff of the Downtown Development Department in perpetuity, until one of the parties opts out.
- 2) The City will cover the cost of power, water/refuse, phone, wifi, custodial services, minor maintenance and insurance of city-owned property.

It was recommended that Council accept the Downtown Development staff's recommendation to enter into an agreement with the Downtown Goldsboro Development Corporation for placement of Downtown Development staff consistent to the aforementioned terms. Consent Agenda Approval. Aycock/Broadaway (6 Ayes)

Approval of Resolutions to Request Funding through State Grants (American Rescue Plan Act – ARPA). Resolutions Adopted. Session Law 2020-79 was signed into law on July 1, 2020 to improve viability of the water and wastewater systems of certain units of local government. The State Water Infrastructure Authority and the Local Government Commission have developed criteria to assess local government units and identify distressed units.

The City of Goldsboro has been designated as a distressed unit and intends to make grant applications for the following projects:

- Conduct the rehabilitation of approximately 20,000 linear feet of more than 40-year-old sanitary sewer main. This project will use various methods including CIPP, pipe bursting, and open-cut to rehab this old infrastructure. The City also proposes to rehab approximately 260 sewer services using T-Liner with CIPP, and open-cut. Approximately 130 manholes will be either replaced or lined using a cementitious liner material.

- Modify our current loan to a grant for the 2019 Water Improvements project consisting of various locations of 2-inch diameter water lines (galvanized) as well as existing asbestos water lines that require replacement.
- Apply for reimbursement of design fees for the 2017 Water System Improvements project paid out to The Wooten Company. Staff intends to submit an application using the Pre-Construction Planning Grant – without construction.

The NC Division of Water Infrastructure (DWI) is hosting a funding round for the Clean Water SRF and Drinking Water SRF programs. Applications are due May 2, 2022. Staff recommends applying for assistance through DWI funding for the projects listed above.

Funding requests for the projects detailed above require the adoption of resolutions authorizing the City Manager to execute and file applications on behalf of the City of Goldsboro. Any grants received would be brought back to City Council for approval.

It was recommended that Council adopt the following entitled resolutions authorizing the City Manager to execute and file applications on behalf of the City Goldsboro with the State of North Carolina. Consent Agenda Approval. Aycock/Broadaway (6 Ayes)
