Questions

Boards and Commissions Applications. City Clerk Getz shared the following information: There are two vacancies on the Historic District Commission and there are two vacancies on the Mayor's Committee for Persons with Disabilities. Fritz Knack has submitted an application for the Historic District Commission. The Historic District Commission has not submitted a recommendation. Angela Newsome and Tamara Wilder have submitted an application for the Mayor's Committee for Persons with Disabilities. The Mayor's Committee for Persons with Disabilities met and has recommended both applicants. Council recommended the three positions as stated. City Clerk Getz will bring a resolution to the next meeting to appoint the three applicants.

LGC Financial Performance Indicators of Concern. City Manager Salmon shared the following information: Changes in North Carolina Administrative Code, effective for all annual audits with fiscal year ends June 30, 2021 and later, require that the auditor (Forvis), include, in the presentation to the governing board, the values of Financial Performance Indicators and the Board respond within 60 days to the Local Government Commission with a plan addressing each Financial Performance Indicator of Concern. The City Manager and Finance Director drafted a City response letter to the Local Government Commission (LGC) which is detailed below. City Manager Salmon shared after any questions from Council, staff will make adjustments as necessary and requested Council approval so that the letter can be returned to the LGC. City Manager Salmon presented the following:

Fund Balance Available General Fund

The City's result in FY21 was nearly 14% and the LGC recommends a minimum of 25% which was discussed at the retreat.

In FY 21-22, the City increased its property tax rate from \$0.65/\$100 valuation to \$0.68/\$100. Each cent generates about a quarter of a million dollars and we expect to add three quarters of a million dollars to our fund balance in FY2021-22 and FY22-23. The City also cut spending on training, operations, and maintenance during COVID. Additionally, the City utilized the American Rescue Plan Act (ARPA) funding to pay a portion of personnel costs which otherwise would have taken funding we couldn't buy capital with. We expect available fund balance to exceed the Council set goal of 15% in FY21-22 and more closely approach the LGC recommended minimum of 25% in FY22-23, but that remains to be seen.

General Performance Indicator – Audit Timeliness

The FY21 audit was presented at the Council retreat. We hope to have the next audit done by July 31, 2023 or the middle of August. We hope to be on time for the FY22-23 audit which would be the first of December 2023.

Council has taken steps to make this happen to include: over the past 2 years, added seven (7) full-time personnel in the finance department for purchasing, inventory, accounts receivable, accounts payable and payroll to allow financial tasks to be accomplished in a timely manner. Difficulty in filling the positions slowed the City’s progress as well as the additional workload from the ARPA funding, CRF funding, and Office of the State Auditor’s work. We are also potentially asking Council to consider in the next budget, contracting accounting personnel as necessary to get those jobs done.

General Performance Indicator – Unit Assistance List

The city was put on the Unit Assistance List because we were late with our audit. once we get our audits called up and we get our fund balance up to 15% hopefully approaching 25% we will send a letter to the LGC and they will take us off the Unit Assistance List, but that timeline remains to be determined.

Mayor Ham stated the letter is important to the LGC and he hopes that Council will support the letter and sign it.

Councilman Gaylor inquired about the schedule of the upcoming audits. City Manager Salmon and Catherine Gwynn, Finance Director provided information about the upcoming audits.

Consent Agenda Review. Items K - DD on the consent agenda were reviewed.

Item N. Accept or Reject Initial Bid and Authorize Finance to Advertise for Upset Bids for 506 S. Leslie Street to Matthew Hill. Upon motion of Mayor Pro Tem Polack, seconded by Councilman Broadway and unanimously carried, Council accepted the bid.

Item P. Operating Budget Amendment. Catherine Gwynn, Finance Director, shared she has the wrong line item on Charges for Services but it is actually Revenue from Other Agencies. The ordinance will be corrected and provided to the clerk.

The meeting recessed at 6:41 p.m.

Public Hearings.

Downtown Parking Regulations Public Hearing. Public Hearing Held. The City of Goldsboro in conjunction with Downtown Goldsboro Development Corporation hosted a public parking forum on January 26th to determine the best way to manage changing downtown parking needs. The public forum was facilitated by the Town of Chapel Hill Director of Economic Development and Parking Dwight Bassett. Mr. Bassett led the participants in a discussion to identify one of three

potential management strategies, compiling the results for review by city staff and Council. More than 50 community members participated in the forum, and 43 agreed that there was a need for on-street parking management that limited parking for two or three hours but did not include a parking fee.

During the Council Retreat on February 22, a recommendation of the City Parking Commission was shared to utilize City Ordinance 72.26, two-hour parking limits anytime between 8:30am and 5:30pm, Monday – Saturday on certain streets (Center St. from Ash St. to Chestnut St.; Mulberry St. and Walnut St. from John St. to James St.) to be described in Chapter 75: Parking Schedules, outlining the location of parking restrictions.

Enforcement would be done by the Goldsboro Police Department and Code Enforcement Officers per City Ordinance 72.90 (once appropriate signage is in place). Parking citations will have a \$25 fee, with a \$25 late fee after 15 days and \$100 fee after 30 days, per City Ordinance 72.99.

As directed by City Council at the February Retreat, a public hearing is being held this evening to receive additional public input to be followed by City Council discussion regarding the next steps to be taken, if any.

As part of the review and recommendation process the proposed parking management plan is going before the Planning Board on March the 27th. A recommendation from the Planning Board will be given at the City Council April 3rd meeting at which time the Council will be asked to take official action.

Council is asked to provide direction regarding downtown parking limits so staff may make the appropriate City ordinance changes for Council approval at the April 3, 2023 Council meeting.

The plan indicates that infill development is an action that is essential to the continued development of Goldsboro, this proposal qualifies as being infill development. The plan also identifies a goal as being to focus on improvement of the downtown Goldsboro area. The entire land plan, the area all falls within this mixed use downtown area.

The proposed Place of Entertainment with ABC Permit would operate in the rear warehouse area of Bricks Restaurant (permitted by right, currently in permitting process). The warehouse portion of the structure is proposed to operate as a flexible entertainment space that would be able to accommodate events such as vendor fairs, motorcycle shows, movie nights, beer festivals, tattoo festivals, art class, art shows, gender reveal parties, engagement parties, holiday parties, banquets, and galas. The overall theme is that this would be a rentable space that is flexible to the types of events that it may host.

- Hours of Operation
- Sunday-Saturday: 12 Noon – 11:00 PM
 - Typical days of operation will be Thursday-Sunday with the same hours.

Mr. Brinkley stated these would not be non-stop hours but would be as needed basis based on how the space is being rented out or utilized. Typically, the hours of operation would be Thursday-Sunday with those same hours.

Employees: 10 total employees per shift (2 shifts).
Parking: No minimum off-street parking requirements.

Maintenance/Repair/Refuse Collection: Maintenance and repair will be performed on an as needed basis and trash collection is contracted and scheduled to occur either bi-weekly, weekly and after certain events as needed.

TRC REVIEW: Staff has distributed this proposed special use permit to the Goldsboro Fire Department and to Goldsboro Downtown Development. There were no comments or concerns.

Mr. Brinkley shared the following comments: the general layout is shown to give you some more background. This is where Direct Flooring and Carpet is currently. The front portion where you see what appears to be some structures inside the building is where the proposed Brick’s Restaurant is that's already in the permitting process. That is permitted by right use for that restaurant. The way this building is designed in the rear portion which used to serve as the warehouse, is a very large space that Mr. Ward has identified could be a flexible space to host multiple types of events. The large vacant area is the area we are talking about.

Staff Evaluations: This Special Use proposal is to establish a Place of Entertainment with an ABC Permit. All encompassing for any types of uses that would like to rent that space out.

The proposed Special Use qualifies as infill development.

This will operate in the rear flex space portion of the structure in conjunction with Bricks Restaurant (operating in the old show floor area of Direct Carpet Flooring Outlet)

Staff is recommending a condition be that no outdoor activities are to take place associated with the Place of Entertainment with ABC Permit. All activities and events are to occur inside of the structure.

Mayor Pro Tem Polack opened the Public Hearing. The following person spoke after being properly sworn in.

1. Dr. David Craig shared the following comments: I wanted to say it's not that I'm necessarily against Brick’s Restaurant, but if you think about the proposed usages of this space, parties, gender reveal parties, gatherings and then for the city to say that there's no off street parking required that runs contrary to what the city’s attempting to do or the direction that the city is moving in terms of the proposed parking plan. I know that when you have gatherings of that type, a lot of times it takes more than two hours and so I'm just suggesting that these things be considered.

No one else spoke and the Public Hearing was closed.

Council entered into deliberation and voted on each of the four findings in order to determine whether or not the Special Use Permit should be issued. Council does have the ability to continue the hearing or place conditions upon its approval as long as Council is able to conclude that evidence exists in the record to support the condition.

1. Councilman Broadaway made a motion that the use will not materially endanger the public health or safety. The motion was seconded by Councilman Batts and unanimously carried.
2. Councilman Gaylor made a motion to agree that the use will not substantially injure the beneficial use of adjoining or abutting property. The motion was seconded by Councilwoman Jones and unanimously carried.
3. Councilman Gaylor made a motion to agree that the use will be in harmony with existing development and uses within the area in which it is located so long as it is subject to the conditions that all activities are contained within the structure. The motion was seconded by Councilman Broadaway and unanimously carried.
4. Councilman Batts made a motion to agree that the use will be in general conformity with the City of Goldsboro Comprehensive Land Use Plan. The motion was seconded by Councilman Gaylor. Mayor Pro Tem Polack, Councilman Broadaway, Councilwoman Matthews, Councilman Gaylor and Councilman Batts voted for the motion. Councilwoman Jones did not vote, however, pursuant to NCGS G.S. 160A-75, Councilwoman Jones vote would be considered an affirmative vote. The motion passed 6:0.

It was recommended Council sign the Order to Approve at the April 3, 2023 City Council meeting.

Mayor Ham returned to the meeting at 9:20 p.m.

SU-4-23 Aim 2 Ease – South side of E. Ash St. east of its intersection with Meadow Rd. Public Hearing Held and Findings Adopted. ADDRESS: 3888 E. Ash St.
PARCEL #: 351897115
OWNER: Mary Ivey King
APPLICANT: Barbara Doerter

The applicant requests a Special Use Permit to establish Aim 2 Ease, a reflexology holistic body work therapy (Licensed massage therapy). The property is located in the Office & Institutional 1 Zoning District. The O&I-1 district is established to provide for the development of office and community institutions that have similar development characteristics and require locations close to residential and commercial uses. The district encourages the development of office and institutional uses that provide a step down in intensity between highly developed commercial districts and nearby neighborhoods.

Mr. Brinkley shared an ariel image of the location of the Special Use Request. He stated it is on Est Ash Street, very close to Hwy 70.

Mr. Brinkley stated there is some residential zoning present and a small cluster of O&I 1 with General Business with other General Business zoning in the general vicinity.

According to the City’s Unified Development Code, Table 5.4 Permitted Uses, Fitness Center, Licensed Massage Therapy is permitted as a Special Use in the Office & Institutional 1 district, provided that City Council, acting as the Board of Adjustment votes to issue the permit.

Frontage: 85 ft
Area: 0.44 acres
Zoning: Office & Institutional 1

Existing Use: Vacant commercial business

The City’s Land Use Plan locates this parcel within the Low-Density Residential land use designation. This designation was given based off of existing residential development patterns, constraints to development, and the location of infrastructure. Low-Density Residential land uses have been located where development pressures are the least. Use is not anticipated to present any type of immediate threat to this land use designation due to the fact this property was previously utilized for non-residential purposes. There is current Land Use designation across East Ash Street with Low Density Residential on the south side.

According to the Unified Development Ordinance, a Special Use Permit is required to establish a Licensed Massage Therapy business in the O&I-I Zoning District. Planning staff has been provided with a copy of Barbara Doerters membership with the American Reflexology Certification Board. The American Reflexology Certification Board has also provided the City of Goldsboro with a letter certifying that Barbara Doerter has been a good standing member with the board since 2015. Council entered into deliberation and voted on each of the four findings in order to determine whether or not the Special Use Permit should be issued.

- 1. Councilman Gaylor made a motion that the use will not materially endanger the public health or safety. The motion was seconded by Mayor Pro Tem Polack and unanimously carried.

UDO-1-23 Article 5: Section 5.5.4 – Special Use Specific Use Regulations (E) Bars, Nightclubs, Pool Halls, Microbreweries, Places of Entertainment (Both Public Private and for Profit) w/ ABC Permit. Public Hearing Continued to April 3, 2023. APPLICANT: Kyle Merritt

The applicant is proposing for the text located in Section 5.5.4 (E) of the City of Goldsboro UDO to be amended. The proposed amendment would remove language regarding how distance is measured to determine that there is at least 50 feet between Bars, Nightclubs, Pool Halls, Microbreweries, and Places of Entertainment (Both Public Private and for Profit) w/ ABC Permit. The way that distance is currently measured reads as follows.

The separation distance required by this section shall be measured in a straight line from property line to property line, with no consideration as to intervening structures, roads, or landforms.

The applicant is requesting for the portion of this text that reads “with no consideration as to intervening structures, roads or landforms.” to be removed from the City of Goldsboro UDO.

By removing this, it creates a situation where you could include things such as a public right of way in the required distance separation to achieve the minimum 50 feet needed. These types of uses that are required to meet this 50 feet separation are still identified as Special Uses and would require quasi-judicial review and approval from City Council before any operation would be allowed to take place.

The applicant is requesting this Text Amendment to relocate “Church Spirits & Cocktails” to 116 W. Mulberry Street, which adjacent to St. Stephens Episcopal Church. The only thing separating the property lines is the Mulberry St. right-of-way. This text amendment, if approved, would create an opportunity for Kyle Merritt to apply for a Special Use Permit to establish “Church Spirits & Cocktails” at 116 W. Mulberry St.

Land Use Plan Recommendation: The City of Goldsboro Comprehensive Plan classifies the Central Business District to be in the Mixed-Use Downtown designation. An identified goal of the comprehensive land use plan is to continue to focus on improvement of the downtown Goldsboro area.

See below for the language for the proposed amendment.

ARTICLE 5: SECTION 5.5.4 SPECIAL USE SPECIFIC REGULATIONS (E)

The separation distance required by this section shall be measured in a straight line from property line to property line, with no consideration as to intervening structures, roads, or landforms.

Staff is neither recommending approval nor recommending denial. Staff is acknowledging the fact that if the text is amended that these types of uses (Bars, Nightclubs, Pool Halls, Microbreweries, and Places of Entertainment (Both Public Private and for Profit) w/ ABC Permit) would still be required to undergo the Special Use Permit process which would require City Council to perform quasi-judicial review on each separate request and apply conditions as they see necessary to mitigate the use.

The City of Goldsboro Planning Commission met on February 27, 2023, to review and make a recommendation regarding the text amendment. The Planning Commission voted to adopt the Inconsistency Statement and recommend denial to City Council for the proposed text amendment. The vote was 3-2.

Council discussed the proposed text amendment.

Mayor Ham opened the Public Hearing and the following person spoke.

1. Kyle Merritt explained the proposed use and shared time is an issue due to leasing the building.

Mr. Brinkley shared these types of uses still have to go through the Special Use process.

Council continued discussion.

No one else spoke and the Public Hearing was closed.

Councilwoman Jones made a motion to continue the Public Hearing until April 17, 2023. The motion was seconded by Councilman Batts.

Mayor Pro Tem Polack shared his concerns about waiting until April 17 to address the issue due to the requestors time constraints. Councilwoman Matthews asked if we could change the date to April 3.

Councilwoman Jones amended her motion to continue the matter to April 3. The motion was seconded by Mayor Pro Tem Polack and unanimously carried.

Public Comment Period. Mayor Ham opened the public comment period. The following people spoke:

1. Commissioner Antonio Williams shared on behalf of the County of Wayne, he would request Council do a resolution of support for train/rail service from Goldsboro to Wilmington.
2. Elvin Gray shared concerns regarding animal enforcement rules and mail delivery due to a neighboring dog.
3. Dr. David Craig shared concerns regarding two agenda items on the agenda.
 - a. Catherine Gwynn explained the Operating Budget agenda item.
4. Yvonnia Moore shared concerns regarding the Parking Commission and a downtown parking lot.

No one else spoke and the public comment period was closed.

Councilman Gaylor made a motion to modify the agenda to move items Q and P to Items Requiring Individual Action. The motion was seconded by Councilwoman Jones and unanimously carried.

Consent Agenda – Approved as Recommended. City Manager Salmon presented the Consent Agenda. All items were considered to be routine and could be enacted simultaneously with one motion and a roll call vote. If a Councilmember so requested, any item(s) could be removed from the Consent Agenda and discussed and considered separately. In that event, the remaining item(s) on the Consent Agenda would be acted on with one motion and roll call vote.

Item P. Operating Budget Amendment FY22-23 and Item Q. Change Order No.1 Price Change for the Bulk Storage Tank replacement for the WRF were removed from the agenda after the Public Comment Period. Mayor Pro Tem Polack moved the items on the Consent Agenda, Items K – DD minus P and Q be approved as recommended by the City Manager and staff. The motion was seconded by Councilman Broadway and unanimously carried.

The items on the Consent Agenda were as follows:

Downtown Event Venue Rental Fee Update & Resolution. Resolution Adopted. The HUB is an outdoor public park-like amenity in Downtown Goldsboro, which can be reserved for special events and activities. The 28,000 sq. ft. space was designed to serve the community with restroom facilities, seating and charging stations, as well as a 30’ x 20’ stage, electrical hookups and lighted power pedestals for food vendors.

The HUB is open to the public, with operating hours of 8am – 10pm. For private events, the space must be reserved in advance and all rental guidelines followed.

Rental Fees are as follows:

- Tier 1 – \$500+
For profit events w/ any compensation
- Tier 2 - \$400+
Any event with no admission or compensation (exc. NPOs)
- Tier 3 - \$300+
Any event hosted by a non-profit organization.

All reservations require a \$100 refundable damage deposit and certificate of insurance.

Adjacent to The HUB is a vacant grass lot, which is often referred to as Freedom Field. Typically, this lot is used for overflow event parking, and is occasionally requested as part of a HUB event rental. Currently, there are no special rental requirements for use of Freedom Field, other than the completion of a Special Event Application and \$25 application fee.

Staff recommends updating the event venue fee structure to include Freedom Field. Freedom Field event reservations will include The HUB, with a \$100 rental fee added to The HUB fee schedule. All events will request a \$100 refundable damage deposit and Certificate of Insurance. This recommendation was adopted by motion at the February 23rd Council Retreat, however a Resolution is needed to amend the Special Event fee schedule.

It was recommended Council adopt the following entitled resolution supporting the adoption of an updated special event venue rental fee schedule. Consent Agenda Approval. Polack/Broadaway (7 Ayes)

Resolution to waive and write off tax liens on paving special assessments beyond the 10 year statute of limitations. Resolution Adopted. The City Council has authorized the levy of paving special assessment rolls as recommended by the Engineering department under power granted by N.C. General Statute §160A-216 Article 10.

When the rolls were adopted between 1982 and 2001 a provision for holding some of the assessments in abeyance was included. The reason given was due to unusually shaped lots, small lots undevelopable unless combined with adjacent property, undeveloped lots located within a special flood hazard area, and/or State-owned property. In consulting with the UNC School of Government, we were informed that paving assessments do not qualify for abeyance, only water and sewer assessments qualify (N.C.G.S. §160A-237).

Finance and Engineering staff have identified the paving special assessments that are past the 10 year statute of limitations and were placed incorrectly in abeyance and have submitted this to Council for approval to waive and write off these amounts as staff cannot legally collect. The total of the accounts presented in the resolution is \$35,304.16.

It was recommended that Council adopt the following entitled resolution authorizing the waiver and write off of tax liens on paving special assessments past the 10 year statute of limitations. Consent Agenda Approval. Polack/Broadaway (7 Ayes)

Use of Public Utilities Capital Reserve to assist funding for the capital project of enclosing Bay 8 to store Compost equipment. Approved. The City of Goldsboro Public Utilities Department has an approved FY22-23 budget for the Capital Improvement Project: Compost Bay 8 enclosure. Additional funding is required to complete this project. The Utility Capital Reserve fund was established in FY22-23 to fund Capital Improvement projects.

The FY22-23 budget funded the Bay 8 enclosure project for \$27,000. Individual quotes came in over the \$30,000 threshold that requires this project to go out for bid. The total fund required for this project is estimated to be \$70,000.

Staff recommended Council approve the use of the Public Utilities Capital Reserve fund in the amount of \$43,000 to provide the additional funding required to complete the budgeted capital project; with the total fund required being \$70,000. Consent Agenda Approval. Polack/Broadaway (7 Ayes)

Request Authorization to Purchase a New Front Loader Refuse Truck. Resolution Adopted. On March 8, 2023, Front Loader W1348 caught on fire and has been deemed a total loss. It was a 2010 year model and the top priority on the Public Works Department’s equipment CIP to be replaced in FY23/24. Due to its age and poor mechanical condition, it had already been removed from daily operations and only used as a backup when other trucks were inoperable or in for maintenance.

The City’s Solid Waste Commercial Dumpster Operation requires three Front Loader refuse trucks to meet current customer requirements—including SJAFB. Two trucks are required to run routes daily just to keep up with normal operations. There are times when all three trucks are running routes to help stay on schedule, but the third truck is typically used as backup. It isn’t uncommon for one truck to be out of service for several days waiting on diagnostics, repairs, parts, etc., so a third truck is essential to ensure operations stay on schedule.

Operating without a third Front Loader is not an option if we want to ensure the City can continue to provide quality service long-term and not lose customers. Renting a Front Loader will cost at least \$15,000/month and is not a long-term solution. A new Front Loader costs \$375,000 plus tax, tag, title, etc. or approximately \$400,000. There will be some funds received from the insurance settlement, estimated between \$50K - \$75K.

It was recommended that Council approve the purchase of the new Front Loader for \$400K through a general fund transfer. Consent Agenda Approval. Polack/Broadaway (7 Ayes)

RESOLUTION NO. 2023-19 “RESOLUTION OF INTENT TO PURCHASE A FRONT LOADER”

Municipal Ordinance to Enact Speed Limit Concurrence for Sections of NC 581. Ordinance Adopted. The N.C. Department of Transportation is seeking to update existing ordinances on NC 581 and has requested that the City adopt a concurring ordinance.

NCDOT has recently reviewed the entirety of NC 581 and since there is a section just south of SR 1919 (Westbrook Road) within the Goldsboro Municipal Limits, revision of the 45 and 55 mph speed limits from a rural ordinance to a municipal ordinance is required. The City will need to adopt a concurring ordinance for the following sections of roadway:

- Enact 45-MPH Zone for:
- NC 581 between 0.37 mile southeast of SR 1919 (Westbrook Road) and 0.1 mile southeast of SR 1919 (Westbrook Road)

- Enact 55 MPH Zone for:
- NC 581 between 0.014 mile southeast of SR 1918 (Pecan Road) and 0.37 mile southeast of SR 1919 (Westbrook Road)

City of Goldsboro current ordinances do not include blanket speed limits for NCDOT maintained streets; therefore, the City must adopt an ordinance specific to NCDOT maintained streets within the existing city limits.

It was recommended that Council adopt the following entitled ordinance enacting the speed limit for sections of NCDOT Highway System Street located within the existing city limits of Goldsboro. Consent Agenda Approval. Polack/Broadaway (7 Ayes)

ORDINANCE NO. 2023-10 “AN ORDINANCE ENACTING THE SPEED LIMIT FOR SECTIONS OF NCDOT HIGHWAY SYSTEM STREET WITHIN THE CITY OF GOLDSBORO”

Change Order Numbers 21-Revised and 32-Final for Phase IV Sewer Collection Rehabilitation (Formal Bid #2018-004). Resolution Adopted. City Council approved the original contract for approximately \$9.3M.

Phase IV Sewer Rehab Project is complete. Due to underruns and overruns in the bid line items, staff requested the contractor, T. A. Loving Company, provide final adjustment change orders to alleviate some of the overruns and final adjustments necessary for reimbursement requested from NCDEQ.

Change Order No. 21-Revised

Change Order No. 21 in the amount of \$54,000 was approved by City Council on October 18, 2021. An adjustment of quantities is required for Change Order No. 21 to reflect 32 point repairs instead of 18. This will add an additional cost of \$42,000 as per the contractor’s final Invoice No. 31.

Total Change Order No. 21-Revised = \$96,000.00

Change Order No. 32-Final

Final adjusting change order for pay item underruns and overruns. This change order encompasses bid items that underran and overran bid line items. Overruns have been paid to T. A. Final Adjusting Change Order No. 32 = \$66,829.82

It was recommended that Council adopt the following entitled resolution authorizing the City Manager to execute Change Order No. 21-Revised for a total of \$96,000 and Change Order No. 32-final adjusting change order for underruns and overruns creating a savings of \$66,829.82. Resolution Approving a Memorandum of Agreement (MOA) Relating to the Settlement of Opioid Litigation. Resolution Adopted. On September 20, 2021, Council adopted a resolution approving a Memorandum of Agreement between the state of North Carolina and local governments on proceeds relating to the settlement of opioid litigation.

Wave two settlements have been reached in litigation against s Walmart, Inc., Teva Pharmaceutical Industries Ltd., Allergan Finance, LLC, Allergan Limited, CVS Health Corporation, CVS Pharmacy, Inc., and Walgreen Co., as well as their subsidiaries, affiliates, officers, and directors named in the Additional Settlements.

The opioid epidemic had taken the lives of more than 32,000 North Carolinians, torn families apart, and ravaged communities from the mountains to the coast.

The Centers for Disease Control and Prevention estimates the total economic burden of prescription opioid misuse alone in the United States is \$78.5 billion a year, including the costs of healthcare, lost productivity, addiction treatment, and criminal justice involvement.

Certain counties and municipalities in North Carolina joined with thousands of local governments across the country to file lawsuits against opioid manufacturers, pharmaceutical distribution companies, and chain drug stores to hold those companies accountable.

Representatives of local North Carolina governments, the North Carolina Association of County Commissioners, and the North Carolina Department of Justice have negotiated and prepared a Supplemental Agreement for Additional Funds (SAAF) to provide for the equitable distribution of the proceeds of these settlements.

By joining the settlements and approving the SAAF, the state and local governments maximize North Carolina’s share of opioid settlement funds to ensure the needed resources reach communities, as quickly, effectively, and directly as possible.

It was recommended that Council adopt the following entitled resolution approving the Memorandum of Agreement (MOA) between the State of North Carolina and local governments on proceeds relating to the settlement of opioid litigation.

Mayor and Councilmembers' Comments.

Mayor Pro Tem Polack shared the following comments: I gained a wealth of knowledge from my most recent trip to DC and was also proud to be a representative for not only the council but was able to ask some critical questions regarding the allocation of funding for cities such as ours that have military installations for our school systems. I am still waiting on a response from that as we talked in the retreat. I want to be assured that not only military children but also the citizens within the city get premier education. I also want to say that I'm glad to see that the 135th Proclamation for USCT came into fruition and all those that were an integral part in pushing it through. I was also honored to read that proclamation.

Councilman Broadaway shared the following comments: The main thing I want to say tonight is, I want to shout out again to Dennis Goodson. Dennis Goodson over the last 10 years that I've been involved with the relationship between Seymour Johnson Air Force Base, our council, our county commissioners he has been one of the driving forces and the way we could communicate. First the needs of the base and second the needs of the community and his ability and his time with us in Washington. When we went with Dennis Goodson we were able to talk to people and talk to staffers and talk to people in the halls of Congress. They knew him, they trusted him and so did all the people in the Pentagon. This community and even Seymour Johnson has lost a valued servant and a man that works so very hard for all of us. I just want to commend him again.

Councilwoman Jones shared the following comments: I would like to commend our council tonight. I think we did an excellent job of listening and asking questions and coming up with good options. I think we did a really good meeting tonight, so I just wanted to commend you and thank you. I want all the districts, not just district one to know that we are here working for you and that we do care about you, and we have your best interests at heart.

Councilwoman Matthews shared the following comments: I just want to invite all the women to a Women's History Month photo shoot that's going to happen this Saturday at 11:00 a.m. I'm asking all the women to meet me at the City Hall steps. The dress code is denim and white, please. I'm also asking for all participants to be 18 and up for consent purposes and how the photo is going to be used moving forward. The theme for the photo shoot is, *Anytime Women Come Together with a Collective Intention, It's a Powerful Thing*. That is the theme, that is the vibe, that is the energy, so I hope all the women will come out Saturday 11:00 a.m. City Hall steps and please wear denim and white.

Councilman Gaylor shared the following comments: I agree with Councilwoman Jones, tonight is long and there's a lot of debate as it's supposed to be but it's a good meeting. There are two really tough issues that are in front of us right now and what to me makes them so difficult is there is no perfect answer. There are some answers that are worse than others and inherently maybe some that are better but there is no perfect answer to either one of them one being parking and the other, well frankly we're going to have to have a conversation about alcohol in proximity to stand alone churches and schools. This isn't really about at this layer of conversation, it's not about can that particular building hold enough people or is there enough parking on the street for it. This layer of the conversation is going to come down to how the community is receptive to the idea of alcohol being across the street from a standalone church. Again, there is no perfect answer. There are answers that are appropriate for some towns and inappropriate for other towns and that's going to be a heavy debate and it should be because it's important and it goes to the core tenets of our community as they have evolved overtime. I don't know what the answer on that one is going to be, but I'll look forward to the conversation that I'm certain will come, and I welcome it. It has been a good meeting, it's been a long meeting but with those things that take a long time you can yield really good results. Commissioner Williams discussed the possibility of finally getting some train service back into Goldsboro. That's been about a two decade concerted effort from people in the private sector, people in the public sector. Get it across the finish line Sir, it would be transformative for this community. I stand behind you in those efforts. You've got a ton of people that whether you know them all or not, they're there. I distinctly remember when, a long time ago the compromise was made that the route between Raleigh and Wilmington may go through Goldsboro and Fayetteville and then quietly Amtrak is in Fayetteville and we have the bus service, but we don't have trains. That piece of track is important and it's important to that Union Station and it validates why you hold on to something that's unique to your community. Sir, get that across the finish line and I look forward to standing with you on that one and I support you all the way. Thank you guys for your patience tonight.

Councilman Batts shared the following comments: I agree with Councilwoman Jones. This is my first rodeo so I'm over here soaking all this stuff in. I thought the meeting tonight was great and I learned so much just sitting here listening to everything. Second thing, Saturday, I had the opportunity to go to the Arts Council. Ms. Ernestine Wooten spoke about city, state and some things that happened in our community back in the day. Also, I would encourage especially young

people to go to the Arts Council. To be honest with you, that was my first time going. I have lived in Wayne County for a long time and I have to say I was so impressed with what I saw, with the display they have over there now. I wish all the schools would take the kids there. It is good information. Lastly, a lot of times we take our city employees for granted. I want to say thank you to our city employees and a special to our department heads. Our department heads do a good job but the most important thing sometimes they probably don't think we appreciate them, but I know I do. I just want to say thank you, we really do appreciate the service y'all provide.

Mayor Ham shared the following comments: Sitting here last, everybody was saying what you want to say but I will say that it has already been mentioned two or three times, this council tonight spent going on now five and a half hours here and we haven't argued one time. We've discussed things, we've accomplished a lot tonight and that's the way it ought to be every night, whether it's a two hour meeting or a four or five hour meeting. I think we can all go home tonight feeling that we did something important tonight. We made some decisions, we chose not to make some decisions that were necessary because we needed more information and whatever but it was a good night and I hope we have many more.

There being no further business, Mayor Ham adjourned the meeting at 10:34 p.m.

20230320 Public Hearing Remarks

- In 2017 the City created a Goldsboro Parking Commission, that consists of:
 - The Assistant City Manager,
 - The City Engineer,
 - The Public Works Director and
 - The Police Chief.
- They meet quarterly, and they are responsible for making recommendations, and giving reports, to City Council and the City Manager, concerning parking needs, regulations and other matters in the city. To my knowledge, they have not recently reported any concerns to City Council and the City Manager, about parking downtown.
- Council called a Special Meeting to have a Public Forum to discuss the urgent parking concerns, of the downtown Goldsboro development stakeholders, and citizens.
- The consultant at the Public Forum, drew some conclusions that were based on **some**, but not **all** of the information that was in the downtown parking study, that was completed for the city back in 2016.
- He acknowledged there has been business growth since the parking study was completed, but he didn't mention anything about the Future Conditions Analysis in the Executive Summary of the 2016 parking study report. Especially all the recommendations, for the three stages over the 10 years after 2016.
- The consultant's conclusions were that we don't currently have a parking problem, in any of the areas downtown, at any time during the day, and that we're probably in pretty good shape for now. The same conclusion that was reached in the 2016 Parking Study.
- Back on January 28, 2019, almost three years after the parking study was completed, a video was posted on the city's Facebook page. It is titled "Journey Around Goldsboro Downtown Parking". It has Octavius Murphy interviewing the former DGD Director Julie Metz. She shares that:
 - There have been parking complains, but there are no parking problems.
 - At peak times there's plenty of parking within a block of most downtown business locations.

The walk from their parking spot to their business destination, would be no longer than the walk from their parked vehicle, to the Walmart building.

The walk will be along the lovely streetscape where customers will be able to see other businesses along the way, and

She also shared that, 724 new public parking spaces had been added, and a recent agreement was reached that would add additional 70 spaces.
- The 2016 parking study estimated, that based on the downtown development projects expected to be completed by 2019, a demand would be generated for an additional 382 parking spaces, and for development expected by 2026, another additional 593 parking spaces would be generated.
- Depending on the number of spaces that have added since 2019 we may now, in 2023, have met all of the estimated demand, for the downtown development, that is expected to be completed in 2026.
- Getting back to the public forum. Attendees were asked to choose one of three options that could be taken to address our current public parking space problems, in spite of:
 - The 2016 parking study report indicating we don't have a problem,

- The consultant reporting that we have don't now have a parking problem, and
- The Goldsboro Parking Commission not having discussed or presented any downtown parking problems to City Council and the City Manager
- The consensus at the forum, should be disregarded because, it was based on inconclusive and misinterpreted information
- The DGD Director did not include all the actual expense costs, to implement the recommendation reached at the forum. She did not include:
 - an estimate of the expenses for labor, supplies and equipment to install the signs, or
 - an estimate for the expense for labor, equipment and supplies, for officers to enforce the code
- Considering those additional required expenses, the overall total costs, for doing something we don't now need to do, will far exceed the savings the city would realize by eliminating our primary voting rights.
- Furthermore, this proposed enforcement method, is not recommended in the 2016 parking study, for cities of our size
- The city's current restrictive parking ordinances involves, the marking tires method of enforcement. Some district US Courts of Appeals, have held that the marking tires method, violates the fourth amendment of the US Constitution, because it is an invasion of privacy.
- At the recent city retreat the Police Chief pointed out that overall crime in the city increased 14% since last year. If the city police must take on this additional un-needed responsibility, other more critical policing concerns, such as rape, assault, larceny and vehicle thief, may not be effectively addressed.
- Over the past ten years the City has borrowed money, drained most of the available general fund balance, and invested \$15 million dollars on public investment projects in the downtown area, which include the significant streetscape project, the Paramount Theater, and the construction of a transportation/entertainment HUB.
- During that time, the city decided to defer the expense of purchasing new critical equipment, especially in the Public Works, Public Utilities, and Parks and Recreation departments
- It is now being proposed, that the city now spen money from our depleted available general fund balance, that the city is struggling to increase, so that we can do something, that doesn't now need to be done
- This proposal is for something that is a **want**, but it is not an actually **need**, at this time, when you consider our other urgent needs. Like spending to replacement of old worn-out, public works, public utility, and recreational equipment
- I therefore respectfully urge council, to reject and defer this reject this proposal and revisit it again next year, before adoption of the budget for FY2024-2025
